

2020 DISCOVERY FARMS® YEAR IN REVIEW

With some adjustments, the Discovery Farms Program was able to continue our research and outreach efforts 2020. While we miss seeing you all in person, we have adapted our outreach and farmer connections into a digital landscape. We look forward to seeing you again!

**24
TILE
SITES**

Sample collection concluded in Fall of 2020. Data is being analyzed and returned to our farmer participants. A results meeting and final report will be compiled in 2021.

**11
SURFACE
SITES**

Our partners continued collecting samples throughout the pandemic. Monitoring continued in Kewaunee, Langlade, Juneau/Sauk, and Rock Counties.

**18
VIRTUAL
EVENTS**

While the pandemic might have halted our in person events, Discovery Farms hosted virtual events for farmers, crop consultants, agency, educators, engineers and other water quality professionals.
